Re: Proposed Amendment to Independent Claim 1 for  
Discussion During Telephone Interview in  
Serial No. 09/818,289 (Attorney Docket 188-86)

---

1.(Currently Amended) An electrically conductive fabric having a layer of metallic coating directly onto a single layer of warp warps and wefts weft constituting the fabric,

the warp and weft overlapping each other in a thickness direction.

wherein a percent fabric surface occupancy of warp as a constituent of the fabric is 90% to 110% and that of weft as a constituent of the fabric is 40% to 80%.
